Technical characteristics:

Power supply: 12V DC (Direct connection to DOYSON central unit).

Class D stereo amplifier.

Power: 2+2W.

Stand-by power consumption: <40 mA.

Operational power consumption at max. power: <500 mA.

Impedance: 8 ohms.

Frequency response: 40 Hz – 20 Hkz.

Total Harmonic Distortion TDH (1KHz):

<1% RMS Power 3W

V4.0 Bluetooth version
(supports APTX and AAC formats)

Distance: 8-10 mts.

Frequency range:

2,40 GHz-2,4832 GHz (ISM band)

Security: 4 digit pin code.

Dimensions: 93x80x45 mm

Code: 100066
