

SK-200BT

AUDIO KIT WITH BLUETOOTH. AMPLIFIED MODULE + SPEAKERS

Connectivity with any device: mobile, tablet ...

Doyson presents its new KIT BLUETOOTH + 2 SPEAKERS 3,5" ideal for the sound of independent rooms, without works and easy installation. You only need to connect the BLUETOOTH INTERFACE to the mains and to this the 2 SPEAKERS with extra-flat metal grid. It has an auxiliary audio input that makes it compatible with the connection of your TV, PC... and the control knobs of the DOYSON SERIES S.

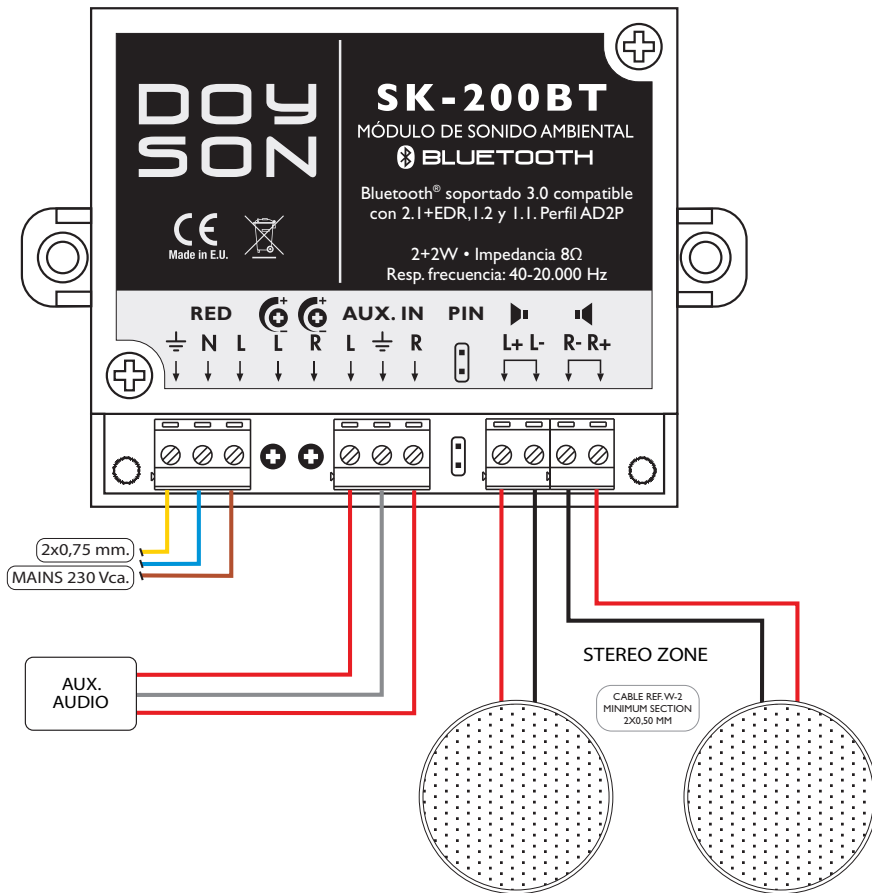

Specially designed for homes and hotels as well as for small businesses. These devices greatly simplify installation while still offering the best sound and convenience of Bluetooth systems.

AUDIO KIT WITH BLUETOOTH. AMPLIFIED MODULE + SPEAKERS

Installation diagram:

Components and technical characteristics:

CONTROL MODULE

Power supply: 230V AC (Supported range: 100-250V AC).
Class D stereo amplifier.
Stand-by power consumption: <40 mA.
Operational power consumption at maximum power: <500 mA.
Power: 2+2W.
Impedance: 8 ohms.
Frequency response: 40 Hz – 20 Hkz.
Total Harmonic Distortion TDH (1KHz): <1% RMS
Power 3W
V4.0 Bluetooth version (supports APTX and AAC formats).
Distance: 8-10 mts.
Frequency range: 2.40 GHz – 2.4832 GHz (ISM band).
Security: 4 digit pin code.
Dimensions: 93x80x45 mm.

TWO 3.5" SPEAKERS

Impedance: 8 ohms.
Power: 10W.
Material: Aluminium and ABS.
Special fixing system for plaster and false ceilings.
Dimensions: Ø120 x 58 mm.
Cutout: Ø105mm.

CABLE

0.50mm two-colour parallel cable.
Length: 5 mts.

Code: 100067
